

Symposium

Latest Evidence and Innovation in Bariatric & Metabolic Surgery

Friday, December 11
12:25 -13:10 Central European Time

Speaker

Prof. Carel Le Roux (moderator)
St Vincent's University Hospital,
Ireland

Dr. Carlos Schiavon
BP Hospital, Brazil
Research Institute HCor, Brazil

Dr. Karl Rheinwalt
St. Franziskus Krankenhaus,
Germany

Overview

The Johnson & Johnson Institute kindly invites you to the symposium about the Latest Evidence and Innovation in Bariatric & Metabolic Surgery. The faculty will discuss the key outcomes of the following 3 publications:

- **MOMS trial (Microvascular Outcomes after Metabolic Surgery)** - randomized study to show that after gastric bypass surgery 8 in every 10 patients had remission of their kidney disease.
- **GATEWAY (Gastric Bypass to Treat obese patients with Steady hypertension)** - randomized clinical trial to show that patients with mild to moderate obesity who underwent bariatric surgery kept their blood pressure under control and required fewer or no medications compared to patients on standard medical therapy
- **Comparative RWE study (Real World Evidence)** between "ECHELON FLEX™ Powered Stapler with GST reloads" and "Signia™ Stapling with Tri-Staple with Tristaple reloads"

Program:

12:25 CET	Welcome	Prof. C Le Roux
12:28 CET	MOMS trial	Prof. C Le Roux
12:35 CET	GATEWAY trial	Dr. C. Schiavon
12:41 CET	Real World Evidence in Stapling	Dr. K. Rheinwalt
12:48 CET	Live Q&A and Panel Discussion	Prof. C Le Roux Dr. C. Schiavon Dr. K. Rheinwalt
13:10 CET	End	

*Schedule based on Central European Time (CET)
